EDUCATION

SRM Institute of Science and Technology — **Expected May 2028**
Bachelor of Technology in Computer Science Engineering - **CGPA: 9.94** — *Chennai, Tamil Nadu*

Delhi Public School Ranchi — **2022 - 2024**
Class XII - Science Stream - **90.0%** — *Ranchi, Jharkhand*

DAV Public School Simdega — **2020 - 2022**
Class X - **92.8%** — *Simdega, Jharkhand*

TECHNICAL SKILLS

Languages: Python, Java, SQL, JavaScript, TypeScript
AI & ML: scikit-learn, TensorFlow/Keras, OpenCV, MediaPipe, Sentence Transformers, LangChain, LLM APIs
Backend & Web: Spring Boot, FastAPI, Flask, Node.js, React, REST APIs, Kafka, WebSockets
Databases & Tools: PostgreSQL, MySQL, MongoDB, Git/GitHub, Docker, AWS, GitHub Actions, Maven
Core: Machine Learning, Deep Learning, NLP, Generative AI, OOP, DSA, DBMS, Microservices

EXPERIENCE

Data Management Intern — **May 2026 - Jul 2026**
Saila Shipping & Clearing Agency (P) Ltd. | 3-Month Internship — *Kolkata, West Bengal*

- Managed **operational and shipment data** for a logistics project, running **validation, cleansing, verification and consistency checks** on **15,000+ shipment records** and reducing data errors by **30%**.
- Prepared **12 weekly analytical reports** and structured data summaries while coordinating with **4 cross-functional teams** to resolve **200+ discrepancies** and documentation gaps.
- Supported **data governance and process-improvement initiatives** by standardizing **10+ documentation templates and quality-control checklists**, with confidential handling of operational data.

AI/ML Team Lead Intern — **Feb 2026 - Apr 2026**
Curious Wings | 3-Month Internship — *Chennai, Tamil Nadu*

- Led a team of **4 interns** to deliver **5+ client AI/ML projects within 3 months**, translating requirements into project scope and selecting suitable technology stacks.
- Coordinated implementation, troubleshooting and client handoff across **8 client meetings**, achieving **100% on-time delivery**; received a **Client Appreciation Certificate**.

AI/ML Intern — **Oct 2025 - Mar 2026**
BrainMint | 6-Month Internship — *Chennai, Tamil Nadu*

- Delivered **three AI/ML automation projects** using **n8n, Dockerized Ollama services, PostgreSQL and API integrations**, automating **20+ workflow steps** and saving an estimated **10 hours of manual work per week**.
- Built end-to-end workflows for prompt/data routing, persistence, execution and testing using **3 locally hosted open-source LLMs (7B-8B parameters)**, processing **1,000+ test requests** at a **95% success rate**; earned a **Best Intern Certificate**.

PROJECTS

AI Match Maker | LLM and NLP Expert Matching — **GitHub**

- Built a **FastAPI service** that embeds expert profiles with **all-MiniLM-L6-v2** and ranks relevant matches using **cosine similarity**.
- Integrated **Gemini and LangChain** for cross-domain jargon translation and AI-assisted brainstorming across expert sessions.
- Exposed **4 AI service endpoints** for matching, translation, facilitation and summaries within a **3-part Next.js, Express and FastAPI application**.

Face Mask Detection | Deep Learning and Computer Vision **GitHub**

- Used **2-stage MobileNetV2 training** (classification-head training, then fine-tuning) for **3 classes**: correct mask, no mask and incorrect mask.
- Combined **OpenCV face detection** with **3 input modes** (image, video and live webcam), adding face tracking, alerts and a **Flask dashboard**.
- Reached **79.5% peak validation accuracy** with a **20% validation split** during fine-tuning; built **confusion-matrix and ROC evaluation scripts**.

Stockout Aware Demand Forecasting | Retail ML Research Project **GitHub**

- Audited **4.5M retail training rows** and ran a leakage-checked forecasting and ordering pipeline on **5,000 store-product series**.
- Modeled **3 simulated stockout mechanisms** using past-only features, **quantile LightGBM** and **conformal calibration** to produce inventory orders.
- Reduced simulated **mean ordering cost by 12-21%** versus seasonal naive across **9 matched settings** on **20,641 held-out complete-day demand proxies**.

SeatSync | Concurrent Event Ticket Booking Platform

- Built a **Spring Boot and React booking platform** with **PostgreSQL**; used optimistic and pessimistic locking to protect **concurrent seat reservations**.
- Developed **12 REST APIs** with JWT and role-based access, plus **35 unit, integration and concurrency tests**; containerized **3 services with Docker**.
- Load-tested **10,000 seeded seats across 50 events** with **500 concurrent users** and a 60-second ramp-up, recording **zero double bookings**.

ACHIEVEMENTS

- **Shortlisted** at the **Schneider HMI Innovation Marathon**, ranking within the **top 100 teams**.
- Earned the **Best Intern Certificate** from **BrainMint**, Chennai.
- **Deployed and sold 5+ client projects** and received a **Client Appreciation Certificate**.
- **Judged** the **HACKIT Hackathon** at SRMIST for **AI-Enabled Application Development and Backend Integration**.
- **Top 5 Finalist** at **Tech Mesh Futurix Hackathon** | **Finalist (Top 7 teams)** at **HACKCELER8 National Level Hackathon**.

CERTIFICATIONS

- **Database Management Systems**, NPTEL
- **Advanced Object-Oriented Programming**, NPTEL

LEADERSHIP & ACTIVITIES

PLACFV (Placement Facilitation Volunteers), SRMIST **Oct 2025 - Present**
Corporate Member *Chennai, India*

- Coordinated **campus placement drives** involving **100+ students** and multiple recruiters across hiring cycles, managing interview scheduling, candidate flow, and on-ground logistics.

GeeksforGeeks Technical Club, SRM University **2025 - Present**
Technical Director *SRMIST, Kattankulathur*

- Lead the technical domain by assigning work, coordinating **development, reviews, testing and releases**; guided the team in building the **club website, recruitment workflows, event registration/ticketing systems** and **internal tracking tools**.
