EDUCATION

SRM Institute of Science and Technology — **Expected May 2028**
Bachelor of Technology in Computer Science Engineering - **CGPA: 9.94** — *Tamil Nadu, Chennai*

Delhi Public School Ranchi — **2022 - 2024**
Class XII - Science Stream - **90.0%** — *Ranchi, Jharkhand*

TECHNICAL SKILLS

Languages: Java, Python, SQL, JavaScript, TypeScript, HTML, CSS
Frameworks: Spring Boot, Spring MVC, Spring Security, Hibernate/JPA, React, Angular, Flask, Node.js, Tailwind CSS
Backend & Architecture: REST APIs, Microservices, ERP Systems, Enterprise Application Development, Event-Driven Architecture, Kafka, WebSockets
Databases & Core: PostgreSQL, MySQL, MongoDB, DBMS, OOP, DSA, Multithreading, Concurrency Control, Query Optimization
DevOps & Testing: Git/GitHub, Docker, AWS, Maven, GitHub Actions, JUnit, Mockito, Secure Coding

EXPERIENCE

Data Management Intern — **May 2026 - Jul 2026**
Saila Shipping & Clearing Agency (P) Ltd. | 3-Month Internship — *Kolkata, West Bengal*

- Managed **operational and shipment data** for a logistics project, running **validation, cleansing, verification and consistency checks** on **15,000+ shipment records** and reducing data errors by **30%**.
- Prepared **12 weekly analytical reports** and structured data summaries while coordinating with **4 cross-functional teams** to resolve **200+ discrepancies** and documentation gaps.
- Supported **data governance and process-improvement initiatives** by standardizing **10+ documentation templates and quality-control checklists**, with confidential handling of operational data.

AI/ML Team Lead Intern — **2025**
Curious Wings | 1-Month Internship — *Tamil Nadu, Chennai*

- Led a team of **4 interns** to deliver **5+ client AI/ML projects within 1 month**, translating requirements into project scope and selecting suitable technology stacks.
- Coordinated implementation, troubleshooting and client handoff across **8 client meetings**, achieving **100% on-time delivery**; received a **Client Appreciation Certificate**.

AI/ML Intern — **2025**
BrainMint | 6-Month Internship — *Tamil Nadu, Chennai*

- Delivered **three AI/ML automation projects** using **n8n, Dockerized Ollama services, PostgreSQL and API integrations**, automating **20+ workflow steps** and saving an estimated **10 hours of manual work per week**.
- Built end-to-end workflows for prompt/data routing, persistence, execution and testing using **3 locally hosted open-source LLMs (7B-8B parameters)**, processing **1,000+ test requests** at a **95% success rate**; earned a **Best Intern Certificate**.

PROJECTS

SeatSync | Concurrent Event Ticket Booking Platform

- Built a **Spring Boot and React booking platform** backed by **PostgreSQL**, using optimistic and pessimistic locking for **transaction-safe seat reservation**; containerized **3 services with Docker** and automated CI with **GitHub Actions** (4-minute runs).
- Developed **12 REST APIs** with JWT authentication, role-based authorization and validation; wrote **35 unit, integration and concurrency tests** (JUnit/Mockito) covering **80% of service-layer logic**.
- Load-tested with **JMeter** on a seeded dataset of **10,000 seats across 50 events**, simulating **500 concurrent users** with a 60-second ramp-up and recording **zero double bookings**.

EnterpriseFlow | Event-Driven Mini ERP Platform

- Developed **3 independent microservices** (Inventory, Finance/Billing and HR) using **Java Spring Boot**, communicating through **5 Kafka event types** for cross-module business workflows.

- Designed **3 module-specific PostgreSQL schemas (15 tables)** with Hibernate/JPA and implemented **25 REST endpoints** secured with **Spring Security/JWT** and transactional service logic.
- Automated **low-stock events triggering finance-side purchase orders** in under **200 ms**; validated with **unit and integration tests** on **2,000 products and 500 orders** of seeded data, achieving **100% event delivery**.

TrackBuddy | Real-Time Ride & Delivery Tracking System

- Designed **3 microservices** (Booking, Driver-Matching and Location-Update) using **Spring Boot, Kafka and REST APIs**, handling **500+ ride and driver events per second** in load testing.
- Implemented **WebSocket-based live trip updates** with **under 100 ms average latency** and **PostgreSQL persistence** for bookings, driver status and trip history.
- Simulated **200 drivers and 1,000 ride requests** with location updates every 2 seconds across **unit, integration and load tests**, matching **98% of requests to a driver within 5 seconds**.

ACHIEVEMENTS

- **Shortlisted** at the **Schneider HMI Innovation Marathon**, ranking within the **top 100 teams**.
- Earned the **Best Intern Certificate** from **BrainMint**, Chennai.
- **Deployed and sold 5+ client projects** and received a **Client Appreciation Certificate**.
- **Judged** the **HACKIT Hackathon** at SRMIST for **AI-Enabled Application Development and Backend Integration**.
- **Top 5 Finalist** at **Tech Mesh Futurix Hackathon** | **Finalist (Top 7 teams)** at **HACKCELER8 National Level Hackathon**.

CERTIFICATIONS

- **Database Management Systems**, NPTEL
- **Advanced Object-Oriented Programming**, NPTEL

LEADERSHIP & ACTIVITIES

PLACFV (Placement Facilitation Volunteers), SRMIST **Oct 2025 - Present**
Corporate Member *Chennai, India*

- Coordinated **campus placement drives** involving **100+ students** and multiple recruiters across hiring cycles, managing interview scheduling, candidate flow, and on-ground logistics.

GeeksforGeeks Technical Club, SRM University **2025 - Present**
Technical Director *SRMIST, Kattankulathur*

- Lead the technical domain by assigning work, coordinating **development, reviews, testing and releases**; guided the team in building the **club website, recruitment workflows, event registration/ticketing systems** and **internal tracking tools**.
